

Sinclair's supervisors do have the right to air what they see fit. However, I have the right to disagree with what they air. Thankfully, however, I won't have to see it, as I live in MI. Also thankfully, we both live and operate in this country. And, because we do, there are regulations about what can go out over public (not public TV, but viewable-by-the-general-public) airwaves. Please see to it, somehow, that Sinclair is made to air an opinion contrary to their own, in addition to the one they hold. The public must see both sides of an issue, instead of being fed pap which somebody else has chewed. True, I live w/ a Fox TV viewer, and I'm a public TV viewer -- but we make it work. So can Sinclair. Thanks for your time.
